

Fellowships

The Office of Nuclear Energy's Integrated University Program (IUP) funds graduate fellowships as part of the U.S. Department of Energy's (DOE) ongoing commitment to educating the next generation of nuclear scientists and engineers.

Fellows receive up to \$155,000 over 3 years to help pay for their graduate studies and research. Fellows complete an internship as part of the award.

Applicants must be:

- U.S. citizens or legal permanent residents
- Entering their first or second year of graduate study
- Enrolled in an IUP-accepted college or university
- Studying nuclear science or engineering or a related field
- A student with a cumulative GPA of 3.5 or higher (undergraduate and graduate)

Applicants must provide:

- A Personal Career Goals essay identifying the applicant's long-term career goals and how those goals align to the DOE-NE mission
- A Proposed Graduate Research essay describing the research the student is interested in conducting during the course of the fellowship
- Three reference letters
- Official undergraduate and any graduate college transcripts

Since FY 2009, the DOE has awarded 179 graduate fellowships to students from 41 U.S. universities and colleges.

**In FY 2015, approximately
\$4.8 million in fellowships was
awarded to students at the
following universities:**

Boise State University

Colorado School of Mines

Georgia Institute of Technology

Illinois Institute of Technology

Massachusetts Institute of Technology

North Carolina State University

Pennsylvania State University

Rice University

Texas A&M University

The Ohio State University

University of California, Berkeley

University of California, Davis

University of Florida

University of Massachusetts, Lowell

University of Michigan

University of Nevada, Las Vegas

University of Notre Dame

University of Tennessee at Knoxville

University of Texas at Austin

University of Wisconsin, Madison

Utah State University
